

EXCLUSIVE – 89% of Covid-19 deaths in the past 4 weeks were among the Fully Vaccinated according to the Latest Public Health data

BY THE EXPOSÉ ON NOVEMBER 11, 2021 • (2 COMMENTS)

The latest official Public Health data shows that the fully vaccinated accounted for 89% of Covid-19 deaths in the past four weeks, whilst also accounting for 77% of Covid-19 hospitalisations and 65% of alleged Covid-19 cases from October 9th through to November 5th.

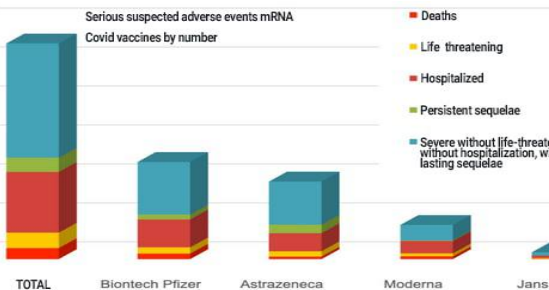

The Covid-19 Statistical Report is a weekly report on Covid-19 data published by Public Health Scotland, and the latest update published November 10th confirms that things are getting worse for the fully vaccinated population by the month whilst things improve for the not-vaccinated population.

117 health/science institutions globally all failed to cite even 1 record of "SARS-COV-2" purification, by anyone, anywhere, ever

June 6, 2021 by Christine — 27 Comments

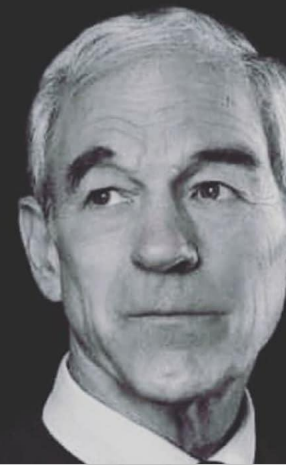

As of October 18, 2021:

117 institutions (mainly health and science institutions) in >20 countries have all failed to provide or cite even 1 record describing "SARS-COV-2" purification by anyone, anywhere, or containing proof of "its" existence. Below is a list of the institutions. Also, note that from several of these institutions (i.e. the CDC, Public Health England, UK DHSC, India's ICMR) we have multiple responses.

The rise of mandatory and forced vaccination

legislation should send a chill up every single American spine. That government can force you to accept any kind of medicine and inject you against your will is totalitarianism at its worst! This egregious form of state power is metastasizing.

Dr. Ron Paul

This is why your doctor gets aggressive.

Blue Cross Blue Shield pays your doctor a \$40,000 bonus for fully vaccinating 100 patients under the age of 2. If your doctor manages to fully vaccinate 200 patients, that bonus jumps to \$80,000.

But here's the catch: Under Blue Cross Blue Shield's rules, pediatricians lose the whole bonus unless at least 63% of patients are fully vaccinated, and that includes the flu vaccine. So it's not just \$400 on your child's head—it could be the whole bonus. To your doctor, your decision to vaccinate your child might be worth \$40,000, or much more, depending on the size of his or her practice.
